

With over 100 years of combined experience, our leadership team has helped some of the largest corporations in the world save hundreds of millions of dollars. Now, we're focused on helping businesses like yours do the same. Most importantly - you'll always be in control.

SaaS – Software as a Service

Our Transportation Management System puts the power of industry leading software in the hands of our clients. The information is in real-time so you can make smarter decisions, faster.

- ✓ Cloud based
- ✓ No software to purchase
- ✓ No maintenance charges
- ✓ Accessible anytime, anywhere
- ✓ Shipment planning & tendering
- ✓ Configurable analytics
- ✓ Tracking
- ✓ Shipment documentation

Adaptive TMS Solutions

Combining all the benefits of our technology with customized traditional 3PL services designed exactly for you.

- ✓ All the function of our technology
- ✓ Real-time support for seasonal needs and spikes
- ✓ No loss on control
- ✓ Leverages the benefits of a 3PL program where “you” need it

Logistics Management Service (LMS)

LMS is a comprehensive solution to help you improve your transportation processes and turn transportation management into a competitive advantage.

- ✓ Increased visibility
- ✓ Streamlined reporting
- ✓ Customized rate structure
- ✓ Faster decisions
- ✓ Improved processes
- ✓ You stay in control

Brokerage Services

Our brokerage services allows you to secure the highest quality carriers at the lowest possible cost. Featuring unique “concierge” service we keep you, and your customer constantly up to date on your shipment status.

- ✓ Any time
- ✓ Thousands of pre-screened carriers
- ✓ Daily DOT compliance checks
- ✓ One shipment, or thousands

Parcel Audit Program (PAP)

Our Parcel Audit Program provides an automated, risk free, ongoing, invoice-based recovery audit of your small parcel shipments.

- ✓ Parcel Recovery Audit
- ✓ Contingency Based, Non Intrusive
- ✓ Customized Reporting
- ✓ Optimization Analysis

The power of experience and expertise put to work for you!
